

Regarding HB2803 - Gun Rights Preservation Act

Dear Chair & members of the committee,

I am writing to voice my opposition to bill HB 2803.

HB2803 instructs Kansas law enforcement to disregard federal law. It would make it impossible for federal authorities to carry out their law enforcement duties. Most importantly, I support common ground gun reform. The vast majority of Kansans feel the same way. This bill would make an already dire situation even worse.

Please vote no on bill HB 2803

Thank you,

Dave Webster
