Committee on Health and Human Services

HB 2556 Opponent, written testimony only

Respected Chair Landwehr and Committee members,

This will be a very short testimonial on HB 2556 and Medicaid Expansion. I am totally against it. Our state can't afford it and it does not do what it wants all of us to think it will do. The Governor has been pushing this on Kansas. She wants to spend money on a failing system.

I'll leave it at that.

Most sincerely,

Jill O'Connor
