SB 116

Opponent

I am Ephren Taylor III representing myself

Chairman Thomson and members of the committee

I oppose this bill because the Edie eagle program has been shown to be absolutely ineffective the right cares to care about indoctrination but obviously that isn't true. Why else would they be supporting a program which has been proven not to work. Simple they want to indoctrinate kids into the NRA. I reject this type of messaging fully and highly recommend the bill be opposed by members of this committee.
