Mr. Chairman and members of the committee, My name is Dr. Chad Issinghoff, I am a lifelong Topekan pediatrician and am writing as a proponent for SB 555 in support of the passage of medical marijuana in Kansas. With children being a primary concern of the legislature on this issue I believe my experience as a pediatrician can provide valuable insight into why this bill gives me the confidence that not only will children be kept safe, but they will be more safe than continuing to not have legislation in place at all.

I look forward to expanding on this during my oral testimony and will make myself available for any questions the committee may have.
