Proponent
SB6

To the Senate Public Health Committee:

Please vote to pass SB6 AS IS! Some of the treacheries of Chapter 65 are corrected in this bill.

This bill restricts the health agencies from ordering people into lockdowns, isolation, quarantines, restrictions on public gatherings and prevents discrimination of minors based on vaccine status.

After the covid debacle we have just been through, it is essential that the legislature upholds the constitution as it should. Now is the time to pass SB6!

SB6 helps to protect our freedoms. "If the foundations are destroyed what can the righteous do?" PS 11:3

Please support the foundation of our society which is assured us in the Constitution!! When the foundation of society is supported, everyone wins.

Respectfully,

Connie Newcome
