

**Senate Public Health and Welfare Committee
SB 5**

**Proponent Testimony
Written Only Testimony**

Richard Mullen
Lawrence, KS
Senate District #2

Honorable Chairwoman Gossage, Vice-Chair Erickson, Ranking Minority Pettey, and Committee Members:

I strongly urge your support of SB 5.

Every abortion kills an innocent child. Every human being is made in the image of God. Every person has dignity and purpose. While we are enslaved by an unconstitutional ruling falsely created by our State Supreme Court, we must be willing to protect these innocent children and preserve their right to life.

This bill will make sure that there are no loopholes by which chemical abortions could be provided via telemedicine. In addition, this bill would prevent the governor from allowing abortions via telemedicine during an emergency declaration. Emergency declarations should not be used as a weapon to destroy or trample on individual rights. This is an important part of this bill as we have seen the abuse of overreach by the office of the governor these past few years.

I ask for and would appreciate your support of SB 5.

Sincerely,
Richard Mullen
Lawrence, KS
