

Removing Mandatory Confinement for Certain Driving Violations; HB 2216

HB 2216 removes, for a first-time offender, the mandatory term of imprisonment for driving with a driver's license that was canceled, suspended, or revoked for failure to appear in response to a traffic citation or failure to pay fines or otherwise comply with a traffic citation. Convictions for the offense will be subject to a mandatory fine of at least \$100.

The bill also replaces all references to "imprisonment" with "confinement."

The bill takes effect upon publication in the *Kansas Register*.
